Strengthen Your Brand
Enhance standard envelopes into eye-catching branded mail pieces with five customised logos / slogans.

Fast Accurate Postage Re-Crediting
Replenish the SendPro P1000 24-hours a day with simple one-touch refills quick, secure and hassle-free.

Keep An Eye On Postage Costs
INVIEW™, the web-based, easy to use, online reporting feature allows you to:
• Have visibility of your postage expenditure by class and format
• Extract information and present simple graphical analysis
• Monitor spending to identify waste e.g. overuse of first class or large letter format

Better Connected
The SendPro P1000 can now connect to a secure server via LAN, PC or Wi-Fi connection. This enables faster communication and allows services such as postal tariff changes, software updates and slogans to be downloaded quickly and effortlessly to the machine.

Easy To Use
All controls are fully integrated on one clear control panel with user friendly instructions. This will guide the operator through each stage of processing your mail. This will make using the machine very easy and useful to everyone.

Correct Postage-Every Letter, Every Time
The SendPro P1000 incorporates a kg integrated weighing platform (which is upgradeable), freeing up desk space. This will guarantee that each item that is franked has the correct postage value.

* 15% savings versus Royal Mail® 1st class stamps and 33% savings verses Royal Mail® 2nd class stamps. Savings do not include equipment running costs or consumables. No minimum volumes needed (prices correct as at 25th March 2019).
